

Mark and Sarah had decided they could not live with their old decrepit bathroom any longer and it was time for a change. Their vision was for a bathroom with a WOW factor where use of this room would be a special experience rather than a necessity. ABC Building & Contractors Ltd

(ABC) impressed them with their advice on how they could achieve this dream at an affordable price, and were selected from a number of suppliers who were invited to provide a quote.

### Project brief

#### The brief entailed:

Replacing old bathroom with new bathroom suite including luxury bath with waterfall taps, walk-in shower, mood LED lighting and integrated sound system, new window and timber flooring

### Challenges that had to be overcome

- o Temporary facilities had to be provided for daily use whilst works were carried out
- o Special equipment was required for cutting high spec porcelain tiles to install specialised lighting and audio equipment
- o Intricate plumbing was required for waste drainage from low level shower base unit

### Successful outcome

The installation was delivered on time, within budget and exceeded expectations

#### Customer feedback

"Dear Dan,

*I would like to write and formally thank you for the work you did on our home.*

*At first we were very concerned as to whether our vision for our new bathroom could be achieved. I am pleased to say that the finished article has more than met our expectations. It feels like a luxury hotel bathroom which has now unfortunately put the rest of our house to shame. You will be the first company we approach to tackle our next big project being the kitchen.*

*Many thanks to John, Billy and yourself for all your hard work and dedication to detail."*

*Mark & Sarah Nelson Hertford, Herts*
